MY PERSPECTIVE OF TAU

- A small casual workshop to collaborate on topic of timing and its adjacencies.
- A forum to discuss the tool or foundry agnostic problem and solution.
- Outcome of the contest could be a used for the open-source community.
- Thorough paper review by technical committee members.

CALL FOR ACTION

- Provide your feedback by filling out survey form.
- Submit paper in future TAU. Participant can still publish paper at other conferences.
- Tell challenges.
- Join the committees.
- Let other people know about TAU if you like 😊

THANK YOU!
